All private pay rides must be paid with a credit card. When you schedule your trip, your credit card information will be stored on file, and the ride's cost will be charged to that card after the trip concludes.

If the transaction is declined, the rider will be accountable for the trip's expenses. Once the credit card details are entered into our system, we can only see the last four digits of the card. We will request credit card information for each scheduled trip.

How did you learn about home52 Transportation?
